## Honors US History

### Learning Packet Overview

The Learning Packet for APUSH will consist of review materials beginning with the Civil War. Students are responsible for reading articles, taking reading quizzes, and responding to open response questions.

### Necessary Materials

All materials are posted on Google Classroom; any future announcements will also be shared via Classroom. All students should already be members of our Google Classroom, but in case it is needed, the class join code is ZXGEPCB. Students to use their kippnash email addresses to join the class, if needed.

Assignments will link students to Newsela.com. Again, students should already be member of our Newsela class, but in case it is needed, the class join code is 2RH4TW.

### How students will be successful in HUSH

Students will be successful if:

- They read articles carefully and use the online annotating devices to help them understand the text.
  - Newsela allows students to adjust the reading level of an article. They are encouraged to pick a level that is challenging but which allows them to make sense of the material.
- They take quizzes carefully, and retake them as needed.
- They respond to open response questions in complete, thoughtful sentences, citing evidence from the text.

### How caregivers can help students be successful

Caregivers can help students be successful by:

- Reading articles with students and asking them questions as they read.
- Making sure the reading level of the article is appropriately challenging for their students.
- Reading their responses to open response questions and giving them feedback about the clarity, thoroughness, and accuracy of their responses.
